

Bay Area Osteopathic Study Group (BAOSG) Course

Exploring the Treatment of Children

Course Directors

Jeffrey Etemad, D.O. and Carmen Hering, D.O.

Saturday, July 20, 2019

Tomales Town Hall

27150 Maine St., Tomales, CA 94972

Course Description

This course is designed for those with interest in the biodynamic approach to Osteopathy in the tradition of James Jealous D.O. Although Dr. Jealous will not be attending this course, he is an important mentor to this group.

We welcome D.O.'s, MD's, dentists, U.S. and international— anyone who has taken courses (phase or BioBasics) with Dr. Jealous or any of his teachers are welcome. Please contact one of the course directors or Marnee if you haven't taken any courses before (before signing up).

Our main goal is to rekindle and broaden interest in the biodynamic Osteopathic approach to treatment. Hope to see you there.

Registration: Cost for the course \$100, which includes lunch and the traditional snack table.

CME: Pending Approval 5-6 hours Category 1A.

Registration can be found at <http://jamesjealous.com/bay-area-osteopathic-study-group/>
